PLATE SOLUTIONS

Kodak

SONORA XTRA DOP Plates

With all the benefits of process free plate making plus faster imaging speeds, better image contrast, and more robust handling, SONORA XTRA Plates will revolutionize your print operation.

Fujifilm

SUPERIA ZX DOP Plates

A breakthrough processless plate that delivers many new features to help offset printers integrate this plate into their complete production process flow, from prepress all the way through the pressroom operating environment.

SUPERIA LH-PJ2 Plates

A positive-working, no-bake thermal plate, Fujifilm's SUPERIA LH-PJ2 dramatically improves on press performance while simultaneously providing excellent durability.

Miraclon

Flexo Plates

FLEXCEL NXH Plates are the definition of versatility. Create high-quality print on a variety of substrates.

Solutions

CTP & WORKFLOW SOLUTIONS

Kodak CtP Solutions

- 4up / 8up / VLF
- Automation with Multiple Cassette Options
- Internal Punch configurations
- Squarespot Imaging Technology

Kodak Prinergy WF Solutions

- Delivers powerful automation customized for your business
- Compatible with all equipment, whether you're printing offset, digital, flexo or gravure

NexFinity Digital Press

- Features a new writing system that quadruples the density of information being imaged – to 1200 dpi by 256 exposure levels
- The result: consistent outstanding detail in highlights and shadows
- Ongoing image correction maintains uniformity at high levels for running costs that compete with medium-run offset litho

Fuji CtP Solutions

- 4up / 8up
- Automation with Multiple Cassette Options
- Internal Punch configurations
- Exceptional Imaging quality and consistency

Fuji ZAC Processor Systems

- Accurate monitoring of conductivity and control of activity
- Unparalleled developing consistency
- Significantly less processing chemical consumption

Fuji XMF WF Solutions

- A powerful and flexible production hub designed to meet the production demands of sheetfed, web and digital print companies
- Built around PDF and JDF technologies, offering a rich set of capabilities in pre-flighting, colour management, imposition and screening

HUBER

INK / As one of the leading printing ink specialists worldwide, Huber offers a wide range of printing inks that provide vibrant colours, optimum runability and printability characteristics and products for special requirements, like low odour applications and spot colour inks. Whether you are printing a commercial or packaging job, connect with Spicers to help you find the right ink that meets your requirements.
