Grow With High-value Applications

Generate higher margins when you expand into:

Banners

Eye-catching banners designed for durability and vibrant color, perfect for indoor and outdoor promotions.

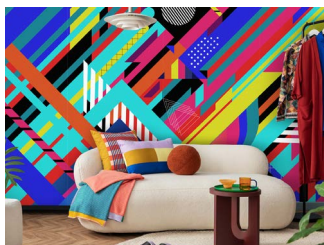

Backlit Textiles

Brilliantly illuminated backlit textiles that enhance depth, detail, and impact in displays.

Vehicle Graphics

Bold, long-lasting vehicle graphics that turn any fleet into a moving advertisement.

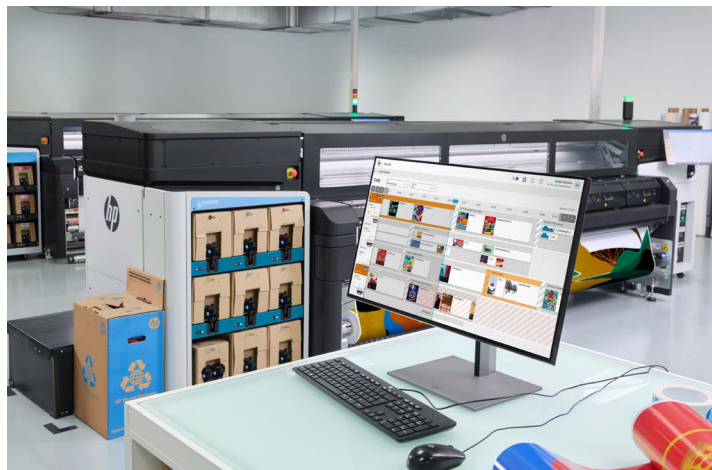

Canvas and Wallpaper

High-quality prints for canvas and custom wallpaper that transform spaces with striking visuals.

Window Graphics

Versatile window graphics that provide privacy, branding, and promotional appeal.

Simplify Your Experience

Available with **HP PrintOS Production Hub²** giving you more control over your operations, enhanced workflow management, and real-time information on your devices—even remotely. Feel confident with **HP Professional Print Service Plans³**, which provide valuable support, software, and training options.

Sustainability in Print

HP Latex printers use water-based inks to produce premium, odorless⁴ prints that contain non-Hazardous Air Pollutants (HAPs).⁵ Latex prints are suitable for sensitive environments while supporting energy efficiency and recyclability to reduce your environmental impact.

[Learn More](#)

¹ The HP Latex Productivity Kit in the HP Latex FS70 W Printer delivers speeds up to 117 m2 (1,259 ft²)/hr on SAV, Banner, Wallpaper, and Canvas.

² For HP's large-format printers, HP PrintOS Production Hub is compatible with HP Latex printers and the HP Stitch Printer series. Check the complete list of compatible models in hp.com/go/printos. HP PrintOS Production Hub premium features are only accessible when purchasing an HP Professional Print Service Plus Plan. Remote control actions are enabled by HP PrintOS SyncEdge.

³ HP Professional Print Service Plans are compatible with the HP Latex 1x5, 3x5, 630, 7x0, 8x0, R, 1500, 2700, 3x00 and FS printer series, and HP Stitch printer series. Some services depend on printer, service contract, and regional availability. Visit hp.com/go/professional-print-service-plans for more information.

⁴ Applicable to HP Latex Inks. Based on sensory evaluations conducted by Odournet, done according to VDI Guideline 3882 where HP 832, HP 872, HP 873, HP 875, HP 882, HP 883, HP 893 and HP 886 Latex Inks were characterized as "weak" in odor intensity and "neutral" for hedonic tone. There is a broad set of media with very different odor profiles. Some of the media can affect the odor performance of the final print.

⁵ HP Latex Inks were tested for Hazardous Air Pollutants, as defined in the Clean Air Act, per U.S. Environmental Protection Agency Method 311 (testing conducted in 2013) and none were detected.
